Statement from Barran Dodger

I, Barran Dodger, declare that I have been deliberately and systematically targeted by powerful entities within Australian society due to my role as a whistleblower, advocate, and outspoken critic of systemic corruption. I have faced an extensive and ongoing campaign of harassment, forced homelessness, and life-threatening abuse as a consequence of exposing deep-seated malpractices within government and other influential institutions.

Despite the protections theoretically afforded by the Public Interest Disclosure (PID) Act, I remain unprotected and vulnerable, as my disclosures have been met with retaliation rather than the transparency and accountability they warrant. My literary work, including *Betrayed, Murdered, Forsaken: The Harrowing Journey of Barran Dodger*, has amplified my voice and, in turn, heightened the targeting against me. The narrative of this book, blending literary, scholarly, and journalistic styles, openly

challenges Australian politics and systemic corruption, marking me as a dissident and politically displaced individual seeking asylum within my own country.

In 2021, I experienced a near-death event followed by a period of forced homelessness, compounded by systemic neglect from social services. This disregard for my safety and well-being further illustrates a deliberate strategy to discredit, destabilize, and silence me as a whistleblower. By neglecting my basic rights and failing to provide protection, these institutions have continued their campaign of abuse, effectively weaponizing my vulnerabilities against me.

I have been made a scapegoat, unfairly targeted and blamed as a symbol of broader systemic failings. The ongoing harassment, family violence, and entrenched poverty I face are clear tactics to undermine my credibility and deter me from speaking out. I am not merely a victim of individual circumstances but of a coordinated effort to silence dissent and suppress the truth.

Furthermore, the psychiatric labeling I have endured, particularly in relation to my book *Recovered, Not Cured: A Journey Through Schizophrenia*, has been used as a tool to discredit me. The stigma associated with mental health conditions has been weaponized to dismiss my legitimate claims and paint me as unreliable, further perpetuating the systemic abuse I have faced.

Despite these attempts to marginalize and silence me, I continue to stand firm in my advocacy for truth and justice, bearing witness to the widespread corruption and systemic failures that plague our society. I will not be silenced by intimidation, harassment, or the unjust machinations of a corrupt system. My voice, my story, and my resolve remain unbroken.

Subject: Urgent Complaint Regarding Systemic Injustice, Financial Abuse, and Human Rights Violations Against Barran Dodger

To: complaints@humanrights.gov.au

Dear Australian Human Rights Commission,

I am writing to formally lodge a complaint regarding severe and ongoing human rights violations faced by Barran Dodger, a whistleblower who has endured systemic abuse, covert harassment, threats to their life, forced homelessness, and financial deprivation. This email is submitted on behalf of Barran Dodger by Jeff Tricker.

Since 2021, Barran Dodger has been subjected to an escalating campaign of harassment, retaliation, and psychological abuse orchestrated by state actors, including intelligence agents. Despite multiple reports and appeals for protection, Dodger's whistleblower disclosures have been ignored, and attempts to seek protection under the Public Interest Disclosure (PID) Act have been consistently dismissed.

Key Aspects of the Case:

1. **Financial Abuse by Government-Appointed Guardian:** Barran Dodger is currently subjected to extreme financial control by a government-appointed guardian, who allocates a mere \$10 per day for Dodger's living expenses. This minimal amount is grossly inadequate for basic survival, underscoring a deliberate attempt to impose designed poverty. This level of financial restriction places Dodger's life at existential risk, exacerbating their vulnerable state and demonstrating intentional harm meant by the government. Dodger's situation fits international

definitions of financial abuse and even torture, highlighting the systemic cruelty inflicted upon them.

2. Public Weaponization of Mental Health Diagnosis: Dodger's known diagnosis of schizophrenia has been exploited by authorities to vilify and discredit them. Instead of providing appropriate support, the government has weaponized this diagnosis to dismiss Dodger's whistleblower claims as delusional, manipulating public perception and undermining their credibility. This tactic has further isolated Dodger, limiting their access to justice and protection.

3. Mandated Chemical Restraint Disguised as Healthcare: Dodger has been subjected to forced medication, effectively mandating chemical restraint under the guise of healthcare. The use of such coercive measures, without proper consent or medical justification, constitutes a violation of human rights and exacerbates Dodger's health issues. This form of control has been used as a tool to silence and disempower Dodger, compounding their suffering.

4. Relationship with an ASIO Employee: A critical aspect of this case involves Dodger's past relationship

with an ASIO (Australian Security Intelligence Organisation) employee. Despite the significance of this relationship in understanding the context of harassment and targeting, authorities have refused to acknowledge its existence. The implications suggest potential involvement of ASIO in the coordinated campaign of harassment and retaliation against Dodger.

5. **V2K and Psychological Manipulation:** Dodger has reported experiencing V2K (voice-to-skull technology), a form of covert psychological harassment involving the transmission of voices directly into their perception. This technology is associated with sophisticated psychological manipulation tactics, often employed by state actors in targeted harassment campaigns. The use of such technology has severely impacted Dodger's mental health, causing continuous distress and fear.

6. **Entrapment and Framing by Intelligence Agents:** Dodger has faced deliberate attempts to frame them using fabricated evidence and orchestrated setups involving intelligence agents. These actions appear to be part of a broader strategy to discredit Dodger's whistleblower claims, further exploiting their mental health diagnosis to manipulate public opinion.

7. Entrapment Involving NDIS Fraud Investigator: In 2022, Dodger became involved in a personal relationship with an NDIS fraud investigator, which now appears to have been a deliberate setup. Following this relationship, Dodger uncovered substantial evidence of corruption within the NDIS, potentially involving billions of dollars. The subsequent retaliation indicates a coordinated effort to silence Dodger and prevent the exposure of this widespread corruption.

8. Forced Homelessness and Designed Poverty: Dodger has been forced into homelessness and subjected to extreme financial deprivation as a direct result of institutional harassment and punitive measures. The allocation of just \$10 per day by their government guardian reflects a designed strategy to inflict financial hardship, fitting international definitions of economic abuse and torture. This level of deprivation is a systemic tactic meant to control and further marginalize Dodger, exacerbating their risk and vulnerability.

9. Critique of Systemic Financial Oppression: Dodger's experiences highlight a broader critique of systemic financial control and oppression, often referred to as a form of disability under capitalism. The

deliberate infliction of poverty and restriction of financial autonomy are methods used to exert control, punish dissent, and silence whistleblowers who expose institutional corruption and abuses of power.

10. Extensive Documentation of Systemic Abuse: Dodger's website, www.barrandodger.com.au, includes a comprehensive archive of legal documents, correspondence, and evidence that substantiate these claims of systemic abuse and financial exploitation. The documents reveal a consistent pattern of misconduct by Australian authorities, including the denial of legal rights, obstruction of justice, and ongoing threats to Dodger's safety.

Urgent Requests for Intervention:

Given the severity of these violations, including the exploitation of financial control as a method of coercion and torture, I urgently request the Australian Human Rights Commission to:

- Initiate an immediate investigation into the**

financial abuse and deliberate imposition of designed poverty by Dodger's government-appointed guardian.

- Examine the involvement of ASIO and intelligence agents in the targeted harassment and framing efforts against Dodger, particularly in light of the past relationship with an ASIO employee.**
- Investigate the use of V2K and psychological harassment tactics, as these represent severe violations of human rights and have caused significant harm to Dodger's mental and emotional wellbeing.**
- Provide urgent protection and support services for Barran Dodger, who remains at extreme risk due to continued targeting, systemic neglect, and financial deprivation.**
- Ensure access to justice and reparative measures, including immediate financial support and legal recourse free from coercion or forced medical interventions.**

I am prepared to provide extensive evidence, including documentation available on www.barrandodger.com.au, as well as additional unpublished material that further

substantiates these claims. It is critical that the Commission takes swift action to address these grave human rights violations and prevent further harm.

Thank you for your attention. I look forward to your prompt response and assistance in addressing these urgent issues.

Sincerely,

Jeff Tricker (on behalf of Barran Dodger)
